

## Lactophar<sup>®</sup> junior

Synbiotics: Live colonic bacteria (lactobacilli) with dietary fibre in an easy to open capsule.

**USE:** 1 capsule/day

**PACKAGING:** 20 blistered capsules/box

### PRODUCT DESCRIPTION

Lactophar junior is a balanced combination of benign, stomach acid resistant, antibiotic and clavulanic acid resistant bacteria in combination with the required dietary fibre that can be quickly metabolised by the bacteria.

- ✓ **5 billion** benign human bacteria per capsule;
- ✓ Also contains **dietary fibre in the form of inulin and FOS (fructooligosaccharides)** that are a natural food for human colonic bacteria;
- ✓ **Unique stability** at room temperature;
- ✓ User friendly **capsules** to dissolve the contents in fluids;
- ✓ Guaranteed **lactose-free**;
- ✓ May also be taken **together with antibiotics**.

### FORMULA (per daily dose of 1 capsule)

#### Active ingredients:

Inulin	193 mg
FOS (Fructooligosaccharides)	96.50 mg
Lactobacillus acidophilus 1.25 mld CFU	12.50 mg

Lactobacillus delbrueckii 1.25 mld CFU	12.50 mg
Lactobacillus rhamnosus 1.25 mld CFU	12.50 mg

#### Inactive ingredients:

Excipient: Oryza sativa L. (rice extract). Vegetable capsule:  
Gelling agent: Hypromellose.

### INTAKE

In a handy capsule form: to be opened to easily mix the powder in liquid or a meal or to pour directly in your mouth. User friendly for children and/or people who have trouble swallowing.

**! Do not mix in substances that are hotter than body temperature** because of the live colonic bacteria!

### CLEAN LABEL

Free from artificial colours and excipients. With only natural excipients and in vegetable capsules. Colour differences are normal and do not detract from the effect.
